Hayfields, Hacking and Outdoor Ring

The acreage is well utilized with very productive hayfields to the west of the barn. In recent years, these fields have produced up to 10,000 small square bales! Near the barn are the oak board paddocks of various sizes plus a stallion round pen. The outdoor ring is just behind the arena and is protected from the wind by a tree covered hill. The outdoor ring is irrigated from the artesian spring-fed pond.

The Spring

A highlight to this farm is its wonderful natural spring water. The pond is continuously fed from this ever-flowing spring. The owners have had the spring water tested and the results show amazing purity!

Potential For An Additional Home

The current residence could be maintained for staff and upon application, a new home could potentially be built. There are several dramatic building sites which offer 360 views over the surrounding hills.

The property is well located on a quiet country road and is not in the Niagara Escarpment Commission Area.
